## Re: COVID-19 by the Numbers, Modes, Big Data, and Reality

Dear Matt,

I may indeed be interested in participating and presenting.

Can you tell me more about the audience and the participants?

Cheers, Axel

Hi Matt,

>> 1. By the popular demand, we have moved the debate to\* Friday, April  
>> 17th, 2020,\*  
>> 2. We will start at about\* 5 pm, the Central European Time\* (please  
>> observe that it is summertime),

OK, and what is the anticipated end time and how many presentations  
have you lined up?

>> 3. In order to join the debate please log yourself on Skype using the  
>> usual procedure,  
>> 4. When ready please call us at \*[vvoip-theoretical-geography-debates.org](http://vvoip-theoretical-geography-debates.org)  
>> <<http://s.bl-1.com/h/cQfnVbXK?url=http://vvoip-theoretical-geography-debates.org>>\*

Will try. Zoom would have been better, if you have/had a license.  
Is this something I should try out beforehand?

>> 5. Please have ready your PowerPoint presentation.  
>> 6. Please ensure a decent webcam and microphone.  
>> 7. Your PowerPoint slides will be viewed by the participants via Skype and  
>> by using a screen sharing option on Skype (just click on Skype icon [image:  
>> icon.png]  
>> <<http://s.bl-1.com/h/cQfnVhwM?url=http://www.vvoip-theoretical-geography-debates.org/index.php?title=File:icon.png>>  
>> )

Yes, that should all work. What time will I have?  
Anything between 15 and 30 min will work for me.

>> 8. Each lecture and discussion will be recorded.  
>> 9. All lectures will be edited and cleaned (manually) to ensure the best  
>> possible quality of the presentation recording.  
>> 10. \*Please confirm this e-mail. \*

OK, fine. Looking forward to meeting you then.  
My skype name is "AxelBrandenburg". To avoid any glitches,  
we could check out the connection on any of the days before.  
17:00 CEST works on any of the days.  
Axel

## COVID-19 by the Numbers, Modes, Big Data, and Reality

**Dear Colleagues**, how are you? We are organizing [online via Skype connection](#) a multidisciplinary scientific debate (colloquium) concerning **COVID-19**, a novel strain of coronavirus.

### Colloquium Title: COVID-19 by the Numbers, Modes, Big Data, and Reality

Let me enumerate below some pertinent boundary issues. More related information is provided on this debate website ([http://www.vvoip-theoretical-geography-debates.org/index.php?title=COVID-19 by the Numbers, Modes, Big Data, and Reality#Cancellation policy of registration](http://www.vvoip-theoretical-geography-debates.org/index.php?title=COVID-19%20by%20the%20Numbers,%20Modes,%20Big%20Data,%20and%20Reality#Cancellation%20policy%20of%20registration)).

1. The debate will concern multidisciplinary scientific analysis, descriptions, and outlook on COVID-19,
2. The debate will be conducted via the internet video-voice connection using Skype technology directly from your office,
3. The debate will take place on April 15 through 16, 2020, and we will start at about 5 pm of Central European Time Zone.
4. The participants are welcome from every country, and various related scientific disciplines,
5. Your lecture (presentation) can be supported by PowerPoint slide presentation which will be viewed by the participants,
6. All lectures (presentations) will be recorded and posted (after some technical editorial work) at the colloquium website and YouTube service for free and open access.

At this moment, I kindly ask you to consider your kind participation in this debate (colloquium). We will appreciate your input. Could you please let me know:

1. Will, you be able to join us for this debate?
2. If yes, let me know the (tentative) title of your lecture (presentation),
3. Do not worry about technical issues with your Skype connection. We have done a number of related online debates and in about week time before the debate (April 15 through 16, 2020) we will run a test trail with you to eliminate (virtually nonexistent) issues.
4. The length of your lecture should be about 20-30 minutes,
5. We envision that each lecture will be followed by the debate and question time,
6. For that reason, we kindly ask all participants to forward to the organizer their PowerPoint slides (even if not the final version) to be distributed (at confidentiality request) between the remaining participants,
7. Due to the above process and due to the interdisciplinary character of the debate all participants will have some preliminary insight into the given lecture. If you wish to share your related work (publications) please forward the PDF's and we will redistribute them between the participants and (with your permission) add to the debate website.
8. In order to get insight into the nature of the proposed debate (colloquium) please visit our past online debates concerning physics and geography. ([http://www.vvoip-theoretical-geography-debates.org/index.php?title=Main\\_Page](http://www.vvoip-theoretical-geography-debates.org/index.php?title=Main_Page))
9. We have a tentative pledge from CNN, and BBC to use the debate materials (lectures).

I look forward to your kind response. Since we are on the fly, please excuse us for possible (not intended)

(even if not the final version) to be distributed (at confidentiality request) between the remaining participants,

7. Due to the above process and due to the interdisciplinary character of the debate all participants will have some preliminary insight into the given lecture. If you wish to share your related work (publications) please forward the PDF's and we will redistribute them between the participants and (with your permission) add to the debate website.
8. In order to get insight into the nature of the proposed debate (colloquium) please visit our past online debates concerning physics and geography. ([http://www.vvojp-theoretical-geography-debates.org/index.php?title=Main\\_Page](http://www.vvojp-theoretical-geography-debates.org/index.php?title=Main_Page))
9. We have a tentative pledge from CNN, and BBC to use the debate materials (lectures).

I look forward to your kind response. Since we are on the fly, please excuse us for possible (not intended) mishaps.

Kind regards, Dr. Matt Ferensby.

RE: COVID-19

Dear Axel, how are you? Thank you for joining the upcoming debate concerning the COVID-19. We would appreciate your contribution. Please find below all the pertinent information.

1. By the popular demand, we have moved the debate to **Friday, April 17th, 2020**,
2. We will start at about **5 pm, the Central European Time** (please observe that it is summertime),
3. In order to join the debate please log yourself on Skype using the usual procedure,
4. When ready please call us at [voip-theoretical-geography-debates.org](https://voip-theoretical-geography-debates.org)
5. Please have ready your PowerPoint presentation.
6. Please ensure a decent webcam and microphone.
7. Your PowerPoint slides will be viewed by the participants via Skype and by using a screen sharing option on Skype (just click on Skype icon )
8. Each lecture and discussion will be recorded.
9. All lectures will be edited and cleaned (manually) to ensure the best possible quality of the presentation recording.

10. **Please confirm this e-mail.**

Kind regards, Matt Ferensby.

**PS. Axel, the audience will be fellow researchers working on COVID-19 modeling.**

## Fwd: COVID-19

Dear Professor Brandenburg, I'm a secretary/office person to COVID-19 colloquium. After the event, I forwarded to you via traditional postal service some paperwork to be signed before (copyright, etc. issues). My letter was forwarded to your postal address. I would appreciate if you could follow my simple instructions as return these papers. Thank you. Kind regards, Anne.

Dear Professor Brandenburg, how are you? Dr. Branderburg, we received your signed Agreement related to your kind participation in the webinar COVID-19. Thank you very much. We wish to forward you a copy of the cosigned Agreement, however, we give up our traditional postal service due to endless delivery problems and delays. Instead, we have a service agreement with the UPS (United Parcel Service-Europe). Due to the logistics, they deliver to the university (as an institution) but do not deliver to the individual people at the university. Do not ask me why. Therefore, Dr. Prasad, could you please let me know your personal surface mail address, and we will forward the Agreement. Thank you for understanding. Kind regards, Anne.

**PS. Let me assure you that we comply with the European Union law GDPR (The General Data Protection Regulation - 25 May 2018).**

Hi Anne,

I now got some mail that I am supposed to pick up from the central post office. I don't know whether it is yours. It could be anything.

It will perhaps be sent back if I don't come.

## Re: April 24, 2020 recordings

Dear Axel.

Thank you for your email.

I still didnt get anything, but to be honest I suspected something in this way.

To avoid something in this way, I ensured by email previously that no charges couldn't come to me, but whatever can happen.

My suggestion is not to do anything about.

Just stop picking documents or so from them.

We keep in contact. I will tell you if I have any new about.

Regards,

Victoria

El mar., 2 nov. 2021 16:24, Axel Brandenburg <[brandenb@kth.se](mailto:brandenb@kth.se)> escribió:

Dear Victoria,

We were both in this Covid-19 session of April 24, 2020, and both of our presentations are online. I now got an amazing parcel with legal documents from Warsaw amounting to something close to 10,000 Euros. Do you know what I'm talking about and did you also get some such stuff??

Thanks, and cheers, Axel

Dear Axel,

thanks for contacting me.

Fortunately for me, I did not get anything of the sort (and hope not to receive it in the future!)

Sorry, but I really do not know what to tell or suggest you... but I really want to help because this is a very scary and incorrect behavior.

If I remember correctly, some months ago some of the other people in the session also wrote about a similar issue... did you get their emails?

In any case, I guess you already tried emailing all the others too...

Let me know if I can help in any way.

If anything useful comes to my mind, I'll let you know.

Best,

Alessio

## Re: Warsaw scam

Dear Axel,

I am surprised that they are still active and even raising the "prices".

After consulting Padua University's offices, I sent them a letter (attached) and never heard anything back from them.

I kind of remember that in their address nothing was found anymore because they ran away or maybe because it was a fake one.

The secretary "Anna" in gmail uses the face of another person.

etc.

Overall, my conclusion is that they are very annoying scammers but harmless.

Best, Marco

Il giorno mer 3 nov 2021 alle ore 20:52 Axel Brandenburg <[brandenb@kth.se](mailto:brandenb@kth.se)> ha scritto:

Dear Marco,

I don't think we ever met, but Alessio Muscillo told me that you also became a victim of what I call Warsaw scam. We were 10 people who lectured on April 24, 2020, and now they want 9893 Euro from me. One of the others of the same session was asked to pay 7000 Euro, but went to the police instead. Did you also go to the police and how important is this?

Thanks, and sorry for bothering you even more with this!!

Dear Francesco,

I don't think we ever met, but Alessio Muscillo told me that you also became a victim of what I call Warsaw scam. We were 10 people who lectured on April 24, 2020, and now they want 9893 Euro from me. One of the others of the same session was asked to pay 7000 Euro, but went to the police instead. Did you also go to the police and how important is this?

Thanks, and sorry for bothering you even more with this!!

Axel

Dear Jindal,

We were both in this Covid-19 session of April 24, 2020, and both of our presentations are online. I now got an amazing parcel with legal documents from Warsaw amounting to something close to 10,000 Euros. Do you know what I'm talking about and did you also get some such stuff? I did already contact Victoria Lopez and Alessio Muscillo, whose lectures are also online, but they haven't received such legal documents.

Thanks, and cheers, Axel

## Re: our April 24, 2020 session

Hi Axel,

I did not receive something like what you mentioned, but in April this year an email was forwarded to me whereby this company had sent an invoice to the University asking for a participation fee, a publication fee and a late fee (totalling around \$7,000 euros). None of those fees were disclosed to us or invoiced earlier, so after consultation with our Faculty we basically communicated to them that we will not be paying these and that they can unpublish the video. They did send me an email trying to persuade me to pay because "it is bad for your career" so it seems to be some sort of extortion.

What I recommend is getting in touch with your University's legal department for advice, but in general these charges were not disclosed in communication with us which seems to be the basis for these being fraudulent (in my case I remember receiving an invitation from them to take part which did not include any information about fees). It might of course be different for a European organization since they are based in Europe.

Hope this helps!

Ali Nasser

## RE: our April 24, 2020 session

Dear Alex,  
I haven't received anything like that.  
But this is worrisome.  
What are the remedies?  
My Ph: [+31629268628](tel:+31629268628)

Are they contacting one at a time? Did you get it to the university address?  
Victoria and Alessio are from which university?  
It should have been around 2k why 10k? ?

## Re: our April 24, 2020 session

The form said 2k which we signed. That's why I am astonished.

Till now I have not been contacted.

I think we should make a strategy together. What do you say?

Those who didn't get may get it. It's a big anxious thing for me a non European.

Shall we have a zoom call?

Reg,

VP

## Re: our April 24, 2020 session

Dear Axel,

You are talking about the conference organized by Matt, right?

I haven't received such a message!

I would be more than happy if I received 100€ for each talk I gave and was online.

But 10.000€ is undoubtedly a scam.

These guys must go to all online talks, check the origin, and give it a try if they find the email.

You talked about the 2D model to explain the initial number of infected people, if I remember correctly.

Did you get it published? If yes, or you have a pre-print, could you send it to me, please?

Thanks!

Hi Sebastian,

Yes, I did get it published; see <https://www.sciencedirect.com/science/article/pii/S2468042720300440?via%3Dihub>

Yes, I was talking about the conference organized by Matt. Do you know him? I wonder whether he knows anything about this scam. The best advise for me is probably to file it with the police somehow.

Axel

Hi Axel,

Thank you for the reference, and I apologize for not getting back to you before. Your paper and some of the others in that issue could be of help to me.

It is incredible how, after all the work done before and now, we still fail to grasp the phenomena of epidemic dynamics.

I mean, in some universal or fundamental way.

I do not know Matt personally.

Coincidentally, he wrote to me a month ago asking my opinion on a SIR medarxiv preprint.

Sebastian

## Re: April 24, 2020 recordings

Dear Axel.

Thank you for your email.

I still didnt get anything, but to be honest I suspected something in this way.

To avoid something in this way, I ensured by email previously that no charges couldn't come to me, but whatever can happen.

My suggestion is not to do anything about.

Just stop picking documents or so from them.

We keep in contact. I will tell you if I have any new about.

Regards,

Victoria

OK, very interesting. I'll email the others. It seems there were 9 published recordings out of 13. I had to (or at least did) sign the receipt before I saw from whom it was. All the legal stuff in the letter is in Polish anyway. Now after 1.5 years, they seem to pretend that they asked me to pay 3000 Euro, and that I didn't and now it is 10,000 Euros because of fees. Strange story!  
Axel

Dear Axell,

I have checked that they are having more fake-conferences as in [https://www.covid-19-response-webinar.org/index.php?title=8th - Webinar - Forecast and Prediction](https://www.covid-19-response-webinar.org/index.php?title=8th_-_Webinar_-_Forecast_and_Prediction) and more.

Maybe it is a good idea to advise other people for don't sign documents.

I saw that some people spoke with the police, maybe a join action is good for everyone... what do you think?

Regards,

Victoria

# 8<sup>th</sup> Debate COVID-19 Forecast and Prediction

## December 18<sup>th</sup>-19<sup>st</sup>, 2020

### Proceedings of the Past Debates

This Collection of lectures highlights all content webinar lectures related to the COVID-19 pandemic in 2019-20. We are committed to disseminating research as quickly as possible, particularly in public health emergencies. All lectures are Open Access free of charge to all viewers.

#### 8<sup>th</sup> Webinar COVID-19: Forecast and Prediction, December 18<sup>th</sup> - 19<sup>th</sup>, 2020.

#	Lecturer Name	Lecture Title
1	<b>Álvaro Leitaó Rodríguez</b> , University of a Coruña, Spain	A stochastic $\theta$ -SEIHRD model: adding randomness to the COVID-19 spread.
2	<b>Patrizio Colaneri</b> , Polytechnic University of Milan, Italy	Covid-19 in Italy: SIDARTHE and beyond.
3	<b>Andrzej Jaskiewicz</b> , Poznań University of Technology, Poland	Modified Dorfman procedure for pool tests with dilution - COVID-19 case study.
4	<b>Nathalie Bajos</b> , Institute of Health and Medical Research, France	When lockdown policies amplify social inequalities in COVID-19 infections. Evidence from a cross-sectional population-based survey in France.
5	<b>Björn W. Schuller</b> , University of Augsburg, Germany	Hearing COVID-19 with Computers.
6	<b>Emmanuelle Augeraud-Véron</b> , Université de Bordeaux, France	Rational social distancing and the spread of COVID-19 in France.
7	<b>Matti Estola</b> , University of Eastern Finland, Finland	How Covid-19 Pandemic Changes the Theory of Economics?
8	<b>Clifford Federspiel</b> , Vigilant, USA	A Healthy Buildings Guideline for the COVID-19 Pandemic and Beyond.
9	<b>Laura Liu</b> , University of Virginia, USA	Panel Forecasts of Country-Level Covid-19 Infections
10	<b>Adriana Reyna</b> , University of Zaragoza, Spain	Virus spread versus contact tracing: two competing contagion processes.

#### 7<sup>th</sup> Webinar COVID-19: Forecast and Prediction, November 20<sup>th</sup> - 21<sup>st</sup>, 2020.

#	Lecturer Name	Lecture Title
1	<b>Silvia Ullo</b> , University of Sannio, Italy	AIRSENSE-TO-ACT: A Concept Paper for COVID-19 Countermeasures Based on Artificial Intelligence Algorithms and Multi-sources Data Processing.
2	<b>Grzegorz Rządkowski</b> , Technical University of Warsaw, Poland	Modelling the spread of SARS-CoV-2 virus infections by using logistic wavelets.
3	<b>Marco Baiesi</b> , Università degli Studi di Padova, Italy	Modelling the deceleration of COVID-19 spreading
4	<b>Kristan Schneider</b> , University of Applied Sciences, Germany	Preventing COVID-19 spread in closed facilities
5	<b>Gjalt Huppés &amp; Ruben Huele</b> , Universiteit Leiden, Netherlands	SARS-2 production and spreading in the environment; a physical approach.
6	<b>Johannes Müller</b> , Technical University of Munich, Germany	Super-Spreading and Contact Tracing
7	<b>Mattia Morini</b> , Epidemiology Department of Prevention, Perugia, Italy	Impact of COVID-19 on the mortality rates for the resident population of the Umbria region in Italy
8	<b>Giulio D'Agostini</b> , Università di Roma La Sapienza, Italy	Inferring vaccine efficacies and their uncertainties. A simple model implemented in JAGS/rjags.
9	<b>Adriana Reyna</b> , University of Zaragoza, Spain	Virus spread versus contact tracing: two competing contagion processes.

## 6<sup>th</sup> Webinar COVID-19: Forecast and Prediction, October 23<sup>rd</sup> -24<sup>th</sup>, 2020.

#	Lecturer Name	Lecture Title
1	Rainer Janssen, Paderborn, Germany	On the Numbers of Infected and Deceased in the Second Corona Wave
2	Juergen Mimkes, Paderborn U, Germany	Exponential Distribution of Large Excess Death Rates in Europe
3	Jose Olalla/U of Sevilla, Spain	The Evolution of COVID-19 in Italy Through Statistical Analysis
4	Giuseppe De Natale, Istituto Nazionale, Italy	Mathematical Modeling of COVID-19 Transmission Dynamics
5	Stanislav Harizanov, Bulgarian Acad. Sci.	Transfer Graph Neural Networks for Pandemic Forecasting
6	George Panagopoulos, Ecole Polytechnique, France	Transfer Graph Neural Networks for Pandemic Forecasting
7	Michalis Vazirgiannis, KTH Sweden	Spatial Bayesian Hierarchical Modelling
8	Nicoletta D'Angelo, U of Palermo, Italy	Environmental Conditions and Human Activity Nexus
9	Sebastian Raimondo, CoMuNe Lab, Italy	Comparison of COVID-19 in Different Countries

## 5<sup>th</sup> Debate COVID-19, Forecast and Prediction, September 18<sup>th</sup> - 19<sup>th</sup>, 2020

#	Lecturer Name	Lecture Title
1	Giovanni Gallo, INAPP, Italy	Assessing policies related to Covid-19 in hardly reliable data.[1]
2	Michelangelo Puliga, LinkaLab Italy	Covid-19 early warning signals in social media?[2]
3	Yurii Dimaschko, Fachhochschule Lübeck	Superspreading as a Regular Factor of the COVID-19 Pandemic: II. Quarantine Measures and the Second Wave.[3]
4	Bosiljka Tadic, Jozef Stefan Institute	Agent-based modeling of latent infection transmissions.[4]
5	Roberto Zavatta, Economisti Associati	Territorial patterns in COVID-19 mortality
6	Kai Nagel, Technische Universität Berlin	Using mobile phone data for epidemiological simulations of lockdowns: government interventions, behavioral changes, and resulting changes of reinfections.[5]
7	Jordi Farauo, Spanish National Research Council	Molecular Dynamics Simulations OfThe Interaction Between Sars-Cov-2 And Different Materials.
8	Giuseppe De Natale, Istituto Nazionale di Geofisica	The evolution of Covid-19 in Italy through statistical analysis: from lethality estimates to seasonal effects.
9	Elisa Alós, Universitat Pompeu Fabra, Barcelona	A fractional model for the COVID-19 pandemic: Application to Italian data.[6]
10	Stanislav Harizanov, Bulgarian Academy of Sciences	Mathematical Modeling of COVID-19 transmission dynamics in Bulgaria by time-dependent inverse SEIR model.
11	Joeri Schasfoort, University of Cape Town	SABCoM: A Spatial Agent-Based Covid-19 Model.[7]
12	Giovani L. Vasconcelos, University of Parana	Modelling the primary and secondary waves of COVID-19 with mathematical growth models.[8]

## 4<sup>th</sup> Debate COVID-19, Forecast and Prediction, July 24<sup>th</sup> - 25<sup>th</sup>, 2020 - 4<sup>th</sup> Debate COVID-19 Webinar

#	Lecturer Name	Lecture Title
1	Jesús Barreal Pernas, Madrid University	Hospital impact analysis of initial phase epidemics by means of Beta regression with Spatio-temporal effects. [9]
2	Björn Johansson, Karolinska Institutet	The effect of masking the general population on COVID-19. [10]
3	David H. Roberts, Brandeis University	New Models of Epidemics and Their Applications to the COVID Pandemic. [11]
4	Didier Sornette, ETH Zurich	Analysing, modelling and predicting the COVID-19 epidemics. [12]
5	Henrik Hult, KTH	Estimates of the proportion of SARS-CoV-2 infected Individuals in Sweden
6	Juri Dimaschko, Fachhochschule Lubeck	Superspreading as a Regular Factor of the COVID-19 Pandemic
7	Giovani L. Vasconcelos, U of Parana	Complexity and power laws in the fatality curves of COVID-19. [13]
8	Beatriz Soane, Sorbonne Université	A Scaling Approach to Estimate the COVID-19 Rate of Infections.
9	Yuri Nestorov, CORE Belgium	Online analysis of epidemics with variable infection rate. [14]

## 1<sup>st</sup> COVID-19 by the Numbers, Models, Big Data, and Reality - April 24<sup>th</sup> - 25<sup>th</sup>, 2020

#	Lecturer Name	Lecture Title
1	Victoria Lopez, Madrid University	A COVID-19 mathematical model based on Flow Networks and SIR.[15]
2	Axel Brandenburg, KTH Stockholm	Piecewise quadratic growth during the 2019 novel coronavirus epidemic.[16]
3	Alessio Muscillo, University of Sienna	Disease spreading in social networks and unintended consequences of weak social distancing.[17]
4	Marco Paggi, IMT School, Lucca	Simulation of Covid-19 epidemic evolution: are compartmental models really predictive?[18]
5	Venkatesha Prasad, Delft University	A simple Stochastic SIR model for COVID-19.[19]
6	Ali Nasser, British Columbia University	Planning as Inference in Epidemiological Dynamic Models.[20]
7	Anand Sahasranaman, Imperial College London	Data and models of COVID-19 in India.[21]
8	V. K. Jindal, Punjab University	COVID-19 – a realistic model for saturation, growth and decay of the India specific disease.[22]
9	Sebastian Gonçalves, Physics Institute	Trends and Urban scaling in the COVID-19 pandemic.[23]
10	Josimar Chire, ICMC Brasil	Social Sensors to Monitor COVID-19 South American Countries.[24]

## 2<sup>nd</sup> COVID-19 Forecast and Prediction - May 15<sup>th</sup> -16<sup>th</sup>, 2020

#	Lecturer Name	Lecture Title
1	David S. Jones, Harvard University	History in a Crisis—Lessons for Covid-19[25]
2	Christofer Brandt, Universität Greifswald	Transparent comparison and prediction of corona numbers[26]
3	Gaetano Perone, University of Bergamo	An Arima Model to Forecast the Spread and the final size of COVID-2019 Epidemic in Italy[27]
4	Keno Krever, Max Planck Institute	Time-resolving an ongoing outbreak with Fourier analysis[28]

Pushing past the timing points in containment trajectories of Severe Acute Respiratory Syndrome

## 1<sup>st</sup> COVID-19 by the Numbers, Models, Big Data, and Reality - April 24th - 25th, 2020

To: Axel Brandenburg &gt;

Dear Axel,

I hope you are fine.

I write you to tell about a new extortion from the guys from Poland. Look the email I received from them just now. It was written in Spanish, this is the translation:

Dear Madam:

We are contacting you on behalf of our client and principal, the company VILLA EUROPA SP. ZOO. in relation to the services contracted by you with it for the dissemination of a scientific conference entitled "A COVID-19, MATHEMATICAL MODEL BASED ON FLOW NETWORKS AND SIR". Said conference was given by you and recorded and published by my client with his approval at his request on his YouTube channel.

Our client informs us that despite the fact that the service was provided to his entire satisfaction and without any reproach, to date he has not proceeded to pay the agreed amount as fees. Numerous requirements were sent to you without you deigning to attend to the aforementioned payment, which is why you were notified of the start of an arbitration procedure in accordance with the provisions of the merited contract and the Warsaw Pan-European Arbitration Court proceeded to dictate the corresponding award in our possession.

It is the custom of this office to try to resolve all kinds of disputes out of court and it is for this reason that we send you this friendly request for payment. Although, in the event that you do not proceed to pay the amount of THIRTEEN THOUSAND THREE HUNDRED AND SIXTY-EIGHT EUROS (€13,368), an amount that corresponds to the fees for the services actually provided, plus interest as referred to in the aforementioned award dictated, in the account number of my client that is indicated below, in the non-extendable period of 7 days from the receipt of this communication, I will be forced to recommend that you seek legal assistance in defense of your legitimate interests.

I will do anything, of course. But I wonder if you did something or someone.

If they do not stop, maybe we can organize a demand against them for harassment/ bullying or similar.

This is very disturbing

What do you think?

Victoria
